CSEG COFFEE TALK

Title: Load Balancing CESM

Presenters: Jim Edwards and Sheri Mickelson

Date: Friday, 3 October 2014

Time: 12:00 - 1:00 (feel free to bring lunch)

Place: Mesa Lab – Damon Room

Abstract:

Would you like to see better throughput in your CESM simulations and be able to produce more science? In this CSEG Coffee Talk, we will discuss why you need to load balance your simulations and the methods used to find load balanced configurations. We will also discuss a new tool that you can use that will automatically find a load balanced layout for you.

Webcast instructions:
    AUDIO – 1-866-740-1260 – Enter Access Code 4971358
    VIDEO – Go to www.readytalk.com under "join a meeting" enter access code
        4971358

Note: The conference is listen only, however, we will take questions through ReadyTalk's chat feature
